**To whom it may concern**

We confirm that Messrs. Bahrain Electromechanical Services W.L.L. (BEMCO) was employed as the Mechanical Services Subcontractor for the Haji Ali Haji Centre at Exhibition Road, being responsible for the installation, commissioning and testing of the airconditioning system.

The airconditioning systems comprised approximately 200 tons of TRANE Water Chilling Machines together with air handling units and ductwork distribution. The air handling units were of INTERKLIMA manufacture.

We have been completely satisfied with the capabilities and integrity displayed by Messrs. BEMCO during the execution of this contract and would recommend their services to any potential contract.

For and on behalf of
